Piezo Certified Inkjet Media (PCM) mainly for aqueous inks but some products cross-compatible

PCM Opaque Heat Transfer Material

This unique coated garment transfer material is an opaque white media designed to be print and cut for heat transfer to light or dark garments, either cotton or cotton blend. Graphics are simply printed right-reading, placed on the garment and heat pressed using a transfer tissue or Teflon pad over the graphic (adhesive transfer tapes do not typically work well). Finished transfers offer terrific color with good handling. This media works with all ink types, and should be printed without heat.

<u>PCM-HTM-50-24</u>	<u>24" x 50'</u>	<u>\$ 154.99</u>

PCM Indoor Wet-Strength Banner Material

This latex and nylon-fiber reinforced paper is durable enough to allow for hemming and grommeting. This water-resistant [water-fast] product is excellent for indoor use at trade shows, in meeting rooms and for retail displays. It is an excellent, affordable alternative for temporary outdoor event banners. This material prints well with all ink types.

<u>PCM-IDBM-50-50</u>	<u>50" x 50'</u>	<u>\$ 164.99</u>
-----------------------	------------------	------------------

PCM Matte Artist Canvas - 7 oz.

This medium weight matte topcoated cotton/polyester blend canvas offers an excellent white point and images well in a variety of print modes. It is designed to be dry to the touch immediately after printing, and offers exceptional water-resistant properties and excellent longevity and durability. Auto sheet cutting is not recommended with this media.

PCM Outdoor PVC Scrim Banner

Based on a standard PVC scrim banner vinyl, this product is coated on one side to be Piezo Certified. This media is extremely durable, and exhibits an excellent white point and exceptional image quality. PVC scrim can be hemmed and grommeted and offers a water-resistant [water-fast] solution for outdoor applications of 6-12 months, depending on weather and environmental conditions and the specifics of mounting.

PCM-PVCB-50-50 50" x 50' \$ 359.99

PCM Water-Fast Backlit Film

This backlit film offers vibrant color at an affordable cost-per-square-foot for dye or pigment ink printing. It performs very well in conventional backlit applications and its water-resistant [water-fast] properties allow it to be used for some outdoor applications without concern for print deterioration from condensation. This product is designed to be reverse-imaged on the second surface and therefore, requires no lamination for standard backlit applications. It can also be mounted and laminated with high-quality pressure-sensitive adhesives.

PCM-WBF2-100-50 50" x 100' \$ 349.99

PCM Water-Fast Matte Vinyl

This water-resistant adhesive-back vinyl is a 3.5 mil calendered vinyl with a semi-permanent adhesive. This product exhibits very good image quality and the matte surface eliminates glare. Ideally suited for long-term indoor and medium-term outdoor applications, it will provide outdoor durability of 3-6 months without lamination. Not recommended for application over rivets, irregular curves or indentations.
