Piezo Certified Inkjet Media (PCM) for all ink types

PCM Opaque Heat Transfer Material

This garment transfer material is an opaque white media designed to be print and cut for heat transfer to light or dark garments, either cotton or cotton blend. Graphics are simply printed right-reading, placed on the garment and heat pressed using a transfer tissue or Teflon pad over the graphic (adhesive transfer products do not work well) at 325 degrees for about 4-6 seconds. Finished transfers offer terrific color with good handling. This media needs to be printed WITHOUT heat.
