

"We've seen every sublimation printer out there. Nothing comes close to the Roland FP-740. Other printers are like toys by comparison. The FP-740 is a true industrial, production printer."

DEVIN WRIGHT

CUSTOM TEXTILES IN RECORD TIME

THE ALL NEW FP-740 SUBLIMATION INKJET. A STUNNING BLEND OF SPEED AND BEAUTY.

Have you been wanting to get into the profitable custom textile race, but thought you couldn't keep up? Think again. The FP-740 from Roland makes it easier than ever to bring stunning graphics to custom apparel and soft signage. No special training is required to produce outstanding results. Sublimated prints are easily transferred to fabric for vibrant flags, banners and textiles that preserve the fabric's natural drape and texture. Ideal for high-speed, high-volume production, the FP-740 uses custom-formulated sublimation inks that produce an exceptionally wide color gamut and offer a level of vibrancy and permanence unrivalled by direct printing or traditional heat transfers. And it's backed with Roland's legendary reliability and unmatched customer service. That's why pros like Devin Wright at AMG are counting on their Roland inkjets to help them stay ahead of the pack.
