

## "IT'S ALL ROLAND'S FAULT!"

Grant Eneix of Macular Media in Houston has a gripe. "The way we see it, it's all Roland's fault," says Grant. "Ever since this wretched VersaCAMM VP-540 entered our workspace, our clients haven't left us alone. 'Gimmie, gimmie, gimmie...more, more, more!' We need a vacation!!?!?!'" All we can say is we're sorry. Sorry your Roland is so versatile it can take on any job. Sorry you can depend on it to perform reliably day in and day out with no down time. Sorry you can produce signs, decals, vehicle graphics and apparel on a single device. Sorry we can't keep away those pesky customers who want to give you more work. A lot of Roland users have the same problem. But since you won the "I Love My Roland" Photo Contest, we CAN do something about the vacation by sending you on a Carnival Cruise. If you're too busy to make it, just let us know.
