Eco-Sol MAX Silver Ink  
2009 Product of the Year

## Introducing the all new VS-640. Metallic ink is just the beginning.

Open up a world of money-making opportunities with the most advanced VersaCAMM ever. It takes the planet's most popular printer/cutter to a new level of temptation. 64 inches for larger vehicle wraps, window graphics, and banners. Production print speeds up to 33% faster with double CMYK inksets. Superior gold-plated printheads. Advanced Ink Circulation that cleans automatically while minimizing running costs. And most striking of all, our revolutionary silver ink option that lets you print over 500 powerful metallic and pearlescent colors. It's a whole new world.
