

## RhinoCAM 1.0 BASIC and RhinoCAM 1.0 PRO

RhinoCAM 1.0 is a plug-in that is completely integrated in Rhino and requires Rhino 3.0 (or greater when available) to be installed in order for it to run. It is **not** a standalone application. If you do not have Rhino loaded on your machine you can download an evaluation version at the MecSoft website or from the 3DTechnics Website. RhinoCAM comes in two configurations:

### RhinoCAM Basic

This plug-in is a general purpose machining program for the general machinist. RhinoCAM includes 2-1/2 axis, 3 Axis and hole making operations. It comes with hundreds of post-processors and a post-processor generator to create user definable post-processors. Packed with sufficiently powerful manufacturing methods this easy to use package is not only effective but also attractively priced for the budget conscious or entry level buyer.

**3 Axis toolpath simulation in RhinoCAM**

### RhinoCAM Pro

This powerful package is ideal for mold, die and tooling, wood working rapid-prototyping and general machining markets. This product boasts of powerful toolpath generation strategies coupled with tools for efficiently controlling the cutting tool for detailed machining capabilities, while not sacrificing ease of use. Has all the basic functionality as well as additional features suitable for demanding users with sophisticated manufacturing requirements.

**4 Axis toolpath simulation in RhinoCAM**

### 4 Axis Add-On Module

RhinoCAM 4th axis Add-On module can be added on the RhinoCAM Basic product. It is included in the RhinoCAM Pro module. Key features of the product are:

- 4th Axis Indexed Machining
- Continuous 4th Axis parallel roughing and finishing operations
- Continuous 4th Axis Engraving of curves including projection on surfaces
- 4th Axis drilling with sorting
- Advanced 3-D toolpath simulation

RHINOCAM FEATURES	RhinoCAM 1.0	4th Axis Add-On	RhinoCAM Pro
<b>2 1/2 Axis Milling</b>			
Pocketing	√	√	√
Profiling	√	√	√
Engraving	√	√	√
Facing	√	√	√
V-Carving	√	√	√
Hole Milling	√	√	√
Thread Milling	√	√	√
