

TDM Solutions is pleased to announce a new product for professional rendering.

Create renderings quickly and easily with professional results and any experience in rendering is required. High quality results in seconds!

The process is really easy:

1. Choose from a wide variety of environments, which will allow you to place your models in real scenarios: like outdoor environments, photography studios, ...
2. Select the ground plane, you can start from an extensive list of materials to create a realistic effect, with the possibility to add your own as well as 3D scenes.
3. Assign materials by dragging and dropping. More than 600 materials, metals, gems, wood, plastic, glass, ...
4. Define the resolution, and click on Render.
