NEW MEDIA (all types)

NEW! ESM ViewThru Vinyl, Removable Adhesive

This updated version of our popular perforated 7 mil adhesive-back uncoated vinyl is designed for window graphics that require one-way view capability, including vehicle window graphics. While the product images well, care should be taken to avoid over-saturation as ink wells in the holes. This product is designed for flat or curved window surfaces with clean removal after 1 year (depending on environment and application). It is durable both laminated and unlaminated, although lamination is recommended for protection against abrasion and chemical deterioration and to keep dirt and debris from filling the holes.

PCM Heat Transfer Tissue - Sheets

These tissues offer protection to heat transfer material for heat pressing (see description of PCM-HTM Opaque Heat Transfer Material). They can be re-used for multiple transfers. Packaged 100 sheets per box, these are an accessory item and not a printable material.

PCM-HTT-11X17	11" x 17"	$ 24.95 (per box of 100 sheets)

PCM Opaque Heat Transfer Material

This unique coated garment transfer material is an opaque white media designed to be print and cut for heat transfer to light or dark garments, either cotton or cotton blend. Graphics are simply printed right-reading, placed on the garment and heat pressed using a transfer tissue or Teflon pad over the graphic (adhesive transfer tapes do not typically work well). Finished transfers offer terrific color with good handling. This media works with all ink types, and should be printed without heat.

PQM Concorde Rag Fine Art Paper, Natural White

This was the first coated fine art paper specifically engineered for a wide-format inkjet printer and the image quality is truly impressive. The 100% cotton fiber mould-made paper features a beautiful texture and at 256 gsm (grams per square meter), has a quality feel. The paper is pH neutral, acid-free and lignin-free. The natural white paper contains no optical brighteners and contains calcium carbonate as filler. The product is water-resistant when used with our pigment inks. Print permanence testing (measured at 450 lux simulating gallery conditions) conducted by Wilhelm Imaging Research, Inc. Grinnell, Iowa, determined that expected print life is between 120-130 years.

PQM-CRNW-49-50	50" x 49'	$ 364.95
PQM-CRNW-49-42	42" x 49'	$ 309.95

PQM Concorde Rag Fine Art Paper, Bright White

This was our second coated fine art paper specifically engineered for a wide-format inkjet printer and once again, the image quality is truly impressive. The 100% cotton fiber mould-made paper features a beautiful texture and is pH neutral, acid-free and lignin-free. This 256 gsm product is water-resistant when used with our pigment inks. Print permanence testing yielded results comparable to the Concorde Rag Natural White paper.
