

# ROLAND SIGN SHOP PICK YOUR PASSION

Roland inkjet printers, printer/cutters and vinyl cutters are legendary for their innovation, quality and reliability. Now, they're available in more models than ever before. Choose from 30" to 104" wide printers, versatile print/cut devices and vinyl cutters. We support every inkjet with our first-rate Passport Customer Care Program and a wide variety of supplies and accessories.

**SOLJET™ PRO II V**  
SC-545EX \$29,995 US

**VERSACAMM®**  
SP-300V \$14,995 US  
SP-540V \$19,995 US

## INKJET PRINTER/CUTTERS

All Roland integrated printer/cutters use advanced Eco-SOL INK, which contains no harmful VOCs, is safe to use, and yields brilliant outdoor durable graphics on both coated and uncoated materials without any need for special ventilation or environmental equipment. Graphics are durable up to three years outdoors without lamination. Our industry-leading cutting technology includes Quadralign®, a unique four-point optical registration system that automatically generates four corner crop marks, allowing you to remove a print, laminate it, and then reload it for contour cutting. The system compensates for skew and distortion, ensuring precision results time after time.

### **SOLJET™ PRO II V Six-Color High-Speed Eco-Solvent™ Printer/Cutter**

Based on Roland's V Technology, the SC-545EX combines unrivaled six-color printing with precision contour cutting. Integrated print/cut technology allows you to enjoy a one-step operation - images are printed and then automatically contour cut on one device without any steps in between. As Roland's top-of-the-line printer/cutter, the SC-545EX achieves a maximum print speed of 315 sqft/hr at 450 x 360 dpi. Available in 54" width. Roland VersaWorks™ RIP included.

### **VersaCAMM® Four-Color Eco-Solvent Printer/Cutters**

Roland's best selling VersaCAMM professional inkjet printer/cutters sets the industry standard for price/performance while delivering durable indoor and outdoor graphics on uncoated media. Available in 30" and 54" models, VersaCAMMs use an integrated media heating system and advanced Eco-SOL INK to print a wide range of brilliant, four-color (CMYK) graphics. Roland VersaWorks RIP included.

VersaCAMMs are also available in sublimation models that come complete with HeatWave™ sublimation ink, transfer paper and powerful color management RIP software to ensure perfect results every time.

*We wrote the book on print/cut technology, literally. It's an informative guide full of step-by-step techniques for putting it to work for your business. To get your free copy, call 800-542-2307, or visit [www.rolanddga.com/mystery](http://www.rolanddga.com/mystery).*

## INKJET PRINTERS

### **SOLJET PRO II V Six-Color or Four-Color Eco-Solvent Printers**

PRO II V printers achieve startling print clarity and stunning color reproduction. With the advent of V Technology, Roland has re-engineered its award winning SOLJET wide-format line and made it even better. V Technology combines several hardware and software refinements that boost production speed up to 340 square feet per hour while allowing PRO II V printers to produce detailed graphics with greater ease and precision than ever before. In addition to CMYKLcLm, PRO II V printers include a newly added CCMYK ink mode ensuring quality images at even the fastest production speeds. Available in 64" and 74" widths. Roland VersaWorks RIP included.

**SOLJET™ PRO II V**  
SJ-645EX \$29,995 US  
SJ-745EX \$32,995 US

Please check [www.rolanddga.com](http://www.rolanddga.com) for current pricing.

## INKJET PRINTERS (CONTINUED)

**SOLJET™ PRO II V**  
SJ-1045 \$59,995 US

**SOLJET™ PRO II**  
SJ-1000 \$49,995 US

**HI-FI JET™ PRO II**  
FJ-540 \$21,995 US

### **SOLJET SJ-1045 Six-Color or Four-Color 104" Eco-Solvent Inkjet Printer**

If you're serious about producing grand format graphics, including billboards, banners and vehicle wraps, this is the printer you've waited for. With a maximum media width of 104" and print speed of 484 square feet per hour, the SJ-1045EX is the widest and fastest Roland printer ever. The SJ-1045EX prints in 6-color or a unique CCMMYK hi-performance Eco-SOL INK set for printing rich, vibrant colors at high speed on coated or uncoated media. To ensure performance for long production runs, the high-capacity ink delivery system incorporates a total of 24 220 cc ink cartridges. Roland VersaWorks included.

The SJ-1045 and SJ-1000 are available in sublimation models that come complete with sublimation ink, transfer paper and powerful RIP software to ensure perfect results.

### **SOLJET SJ-1000 Four-Color 104" Eco-Solvent Inkjet Printer**

The SJ-1000 offers the speed and printing performance of the SJ-1045 with a standard 12 cartridge ink system. Roland COLORIP™ software included.

### **Hi-Fi JET PRO II Six-Color Aqueous Pigment Printer with Blazing Speed**

Available in a 54" width, the Hi-Fi JET PRO II printer combines Piezo print heads and variable droplet technology to achieve stunning color reproduction at speeds of up to 300 square feet per hour at 450 x 360 dpi. Our vibrant pigment or dye inks provide an extremely wide color gamut, and the image fidelity of true 1440 x 1440 dpi resolution make it ideal for the production of fine art, photography, and mural-size graphics. Roland COLORIP software included.

## VINYL CUTTERS

**CX PRO SERIES**  
CX-300 \$3,295 US · CX-400 \$4,295 US  
CX-500 \$5,295 US

**GX DESKTOP**  
GX-24 \$1,995 US

**STIKA CUTTERS**  
SX-8 \$499 US · SX-12 \$699 US  
SX-15 \$999 US

### **CX PRO Series Unmatched Precision And Reliability With Industry-First Features**

With an advanced, digitally controlled servomotor and 32-bit RISC CPU, the CX PRO Series offers hi-speed, precision cutting with unmatched reliability. It has an adjustable down force between 20 and 350 grams and three separate cutting modes for handling vinyl, window tint film and even an overcut mode for sandblast. The CX PRO includes several features that increase usability, including front and rear media feeding, USB and parallel connectivity and Roland CutChoice® software. Maximum cutting widths are 29" (CX-300), 39" (CX-400) and 47" (CX-500).

### **GX-24 Desktop The No. 1 Choice of Signmakers Worldwide**

Roland's GX-24 desktop vinyl cutter incorporates several advanced features previously available only on more expensive cutters, such as digital servo motors, advanced curve smoothing and optical registration for contour cutting previously printed graphics and extensive material compatibility. The GX-24 is compatible with all professional signmaking software, and comes with a Windows® driver and Roland CutStudio™, a versatile design software plug-in that allows you to create and import graphics in several formats. Maximum cutting width is 23".

### **STIKA® Portable Cutter**

The highly affordable STIKA includes easy-to-use software to cut vinyl letters and graphics for decals, labels, product decoration, signs, POP and window displays, vehicles, posters, and more. The STIKA SX-8 accepts media up to 8.5" wide. The SX-12 accepts media up to 12" wide. More than twice as fast as the other models, the SX-15 cuts vinyl up to 4" per second and accepts media 12" or 15" wide. Roland CutChoice software included.

## INKJET MEDIA AND INKS

Consistently high-quality printing is achieved by utilizing media, ink and profiles that have been carefully matched to the printer. At Roland, we offer more substrate choices than any other manufacturer. You can choose from a wide variety of coated and uncoated banner materials, adhesive-backed vinyls, papers, films, and fine art materials. Whether you're printing fine art giclées or outdoor banners, you're assured of brilliant color and excellent durability. To assist you in determining the best substrate for your particular needs, we've put together a handy Media Application Guide. To order yours, or for more information on the latest Roland media offerings, please visit our web site at [www.rolanddga.com/media](http://www.rolanddga.com/media).

Roland Eco-SOL INK is formulated especially for SOLJET and VersaCMM inkjets. It yields brilliant outdoor durable graphics on both coated and uncoated materials without any need for special ventilation or environmental equipment. Graphics are durable up to three years outdoors without lamination. The advanced solvent ink is available in CMYK+LcLm for photographic quality with fine gradations or CCMYK for rich color density even at high speeds.

White Eco-SOL INK is available as an option for the SC-545EX printer/cutter. White Eco-SOL INK expands the range of applications for this powerful inkjet device by allowing it to print white graphics onto a broad range of transparent media, and can also be printed as an undercoat to increase the opacity and brightness of four-color printing.

Roland aqueous pigment ink has an extremely wide, vibrant color gamut. The CMYKOG ink set is ideal for matching color and reproducing a huge color gamut, while the CMYKLcLm ink set offers smooth gradations of pastels, shadows and skin tones. Roland dye inks are ideal for indoor applications.

## PASSPORT CUSTOMER CARE PROGRAM

Roland's Passport Customer Care Program is your ticket to the industry's highest levels of support and service. A cooperative effort by Roland and Roland Authorized Resellers, this program has been designed to enhance your ownership experience and incorporates the full range of Roland support and service vehicles including your machine's outstanding warranty, software updates, media profiles, Roland University workshops and even User Forums where you can share information with other Roland users.
