## TOOLS OF THE TRADE

# Restyling

GX Pro series shown

Roland Restyling is the complete package...everything you need to turn vehicles into works of art, including the world's best-selling vinyl cutters, inkjet printers and printer/cutters, Roland Eco-Sol MAX mild solvent and Heatwave sublimation inks, Roland certified media and profiles, and powerful Roland VersaWorks RIP or CutStudio software.

### GX PRO SERIES VINYL CUTTERS

Powered by digital servomotors, Roland GX Pro vinyl cutters achieve maximum accuracy and get jobs done faster. They get you in on a wide range of profitable applications including cut vinyl graphics, custom window tinting, clear paint protectant, custom cut window graphics, heat transfer apparel, airbrush masks and more. Maximum cutting widths are 24" (GX-24), 29" (GX-300), 39" (GX-400) and 47" (GX-500). Includes Roland CutStudio® software.

VersaCamm VP series shown

### VERSACAMM® ECO-SOLVENT PRINTER/CUTTERS

Roland's best-selling VersaCamm inkjet printer/cutters produce vehicle graphics ranging from simple decals and pinstriping to partial and full wraps, as well as custom apparel and banners. Select the high-performance VersaCamm VP series for the speed, precision and superior media handling your fast-paced business requires. Or choose the SP series for impressive all-around performance at a great price. Both product lines come in 30" and 54" widths and feature advanced ECO-SOL MAX ink and Roland's own VersaWorks RIP software. For optimum results, pair your VersaCamm with Roland's certified media line. More than 15 adhesive-backed options give your graphics the edge including our view-thru vinyl for eye-catching window graphics.

SOLJET XC-540

### SOLJET™ XC-540 ECO-SOLVENT PRINTER/CUTTER

Engineered to support high-volume environments, the 54" XC-540 is the ultimate production tool for not only custom vehicle graphics and decals but also custom apparel, banners, signs, posters and more. Professionals everywhere rely on the XC-540 to customize vehicles from race cars to jetboats to Zambonis. Delivering vibrant 6-color CMYKcLm images at 441 sqft/hr, the XC-540 features a tri-heating system, advanced media feed and automatic take-up system and can be upgraded with an optional dryer/blower. Roland VersaWorks RIP included.

### XJ AND AJ SERIES ECO-SOLVENT PRINTERS

The ultimate in pure print performance, our XJ and AJ series print-only devices are ideal for creating superior wraps and fleet graphics. The PRO III XJ series (available in 54", 64" and 74" models) delivers richly saturated 6-color prints with virtually no banding at resolutions up to 1440 dpi. For serious power users, the AJ Series (available in 74" and 104" models) delivers beautiful, durable graphics up to 104" wide on banner, vinyl and flexible face media including backlits at speeds up to 871 sqft/hr. Roland VersaWorks RIP included.

Hi-Fi Express FP-740

### HI-FI EXPRESS FP-740 SUBLIMATION INKJET PRINTER

Take restyling beyond the exterior of the car with the power of sublimated graphics. From seat covers and headliners to apparel, flags and coordinated soft signage, sublimated graphics add extraordinary impact. The all new Hi-Fi Express FP-740 74" sublimation printer brings Roland's award-winning inkjet technology, unmatched ease-of-use and legendary reliability to soft signage. Durable, rigid construction, an extended capacity ink delivery system and an impressive maximum print speed of 548 sqft./hr. make it ideal for high-volume production. Roland VersaWorks™ RIP included.

### ROLAND UNIVERSITY TRAINING WORKSHOPS

Through Roland University, we also offer a wide range of hands-on, professional workshops, including the two-day Roland Born to Wrap™ Vehicle Graphics class. To learn more, visit [www.rolanddga.com](http://www.rolanddga.com).
