User adjustable stamp shoulders:

Stamp shoulder settings under OPTIONS – STAMP:
(available with Advanced and Expert view level)

- Shoulder name
Names of the ten available shoulder settings, as displayed in the

printer driver. e.g.
Name must not exceed twenty characters.

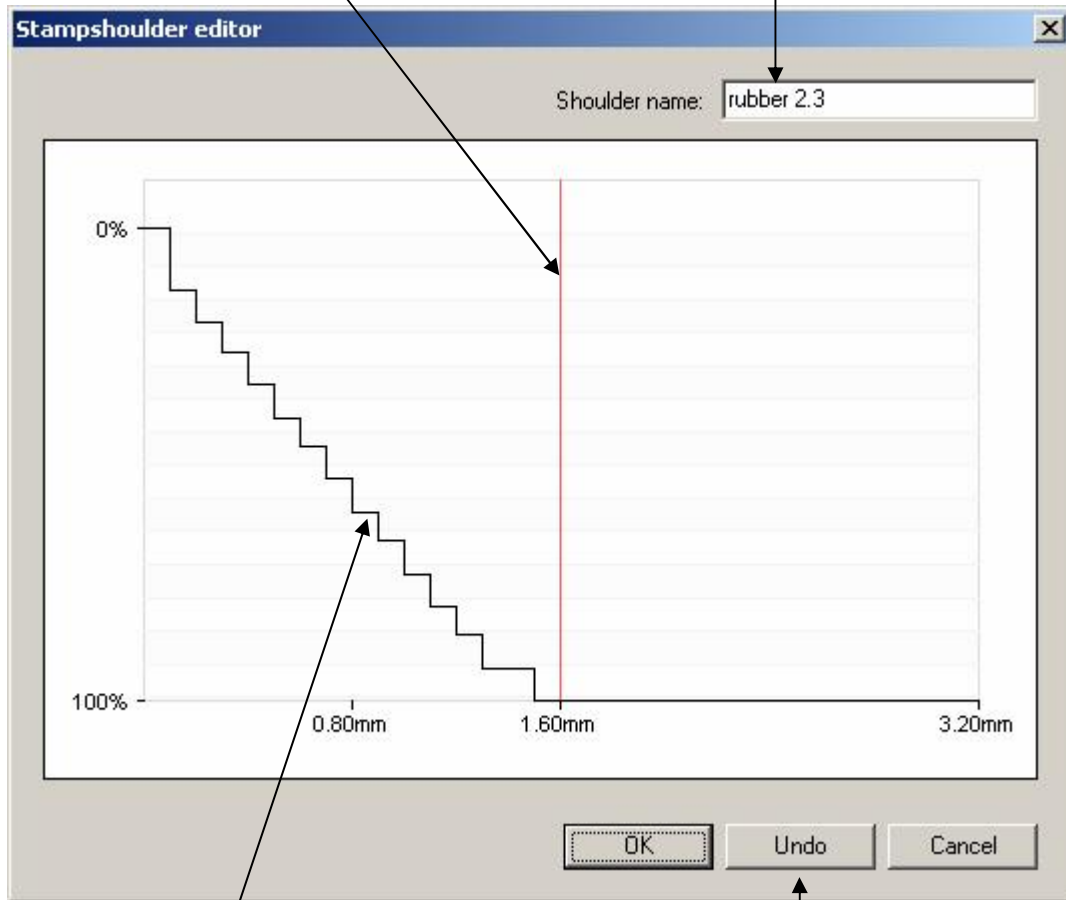

Driver version **8.0.5.6** or higher is required to support the new shoulder types!

- Add
Adds a new shoulder to the list and opens the stampshoulder editor.
- Remove
Deletes the highlighted shoulder from the list.
- Edit
Opens the stampshoulder editor to enable modification of name and settings.

Stampshoulder Editor

Drag the red line to modify shoulder with.

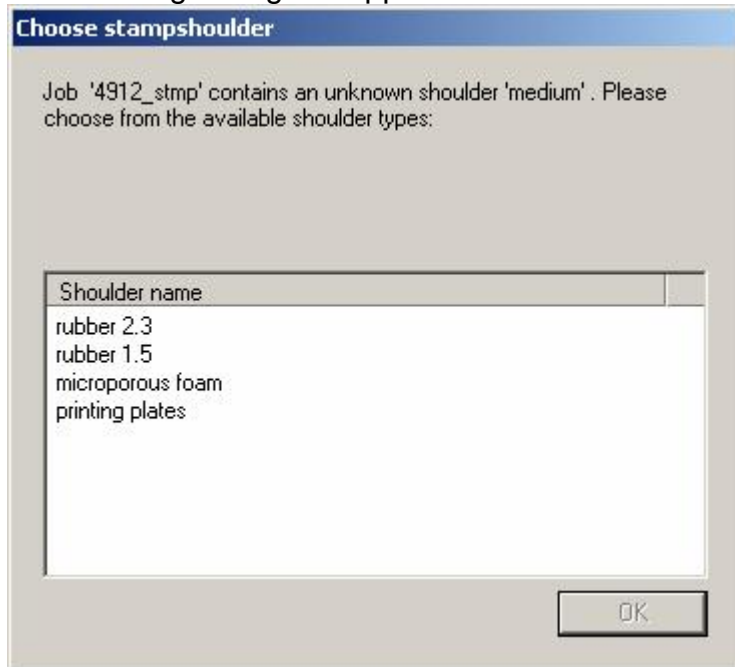

Enter shoulder name here.

Drag the single levels to achieve the desired shoulder settings.

Press the Undo button to discard all modifications.

If a Job printed with driver version prior to 8.0.5.6, is positioned on the plate, the following dialog will appear.

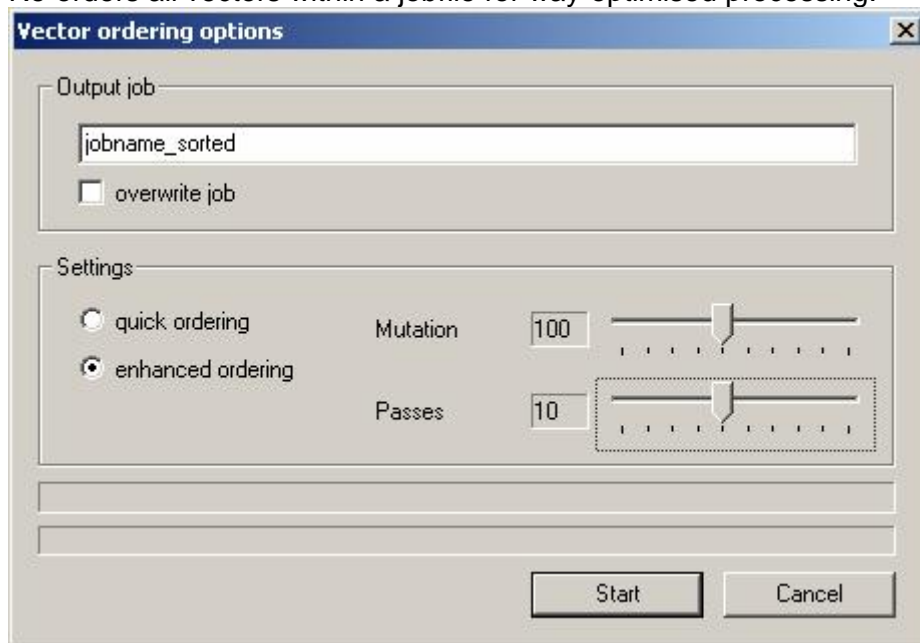

Select one from the available shoulders and click OK.
The chosen shoulder will be used temporary until JC is being restarted.

What's New?
