

# rhinestones rock

Rhinestones are hot...and the affordable EGX-30A is even hotter.

We make it fast and easy to add value to everything from jeans and t-shirts to hats and handbags. The Roland EGX-30A is an affordable all-purpose desktop engraver ideal for producing custom hot-fix rhinestone templates for clothing and accessories. The flexibility of the EGX-30A and R-Wear Studio design software allow you to keep your pricing competitive, even on custom runs.
