Top reasons to buy

1

Roland Reliability

2

Outstanding Cut Quality

3

Versatility

4

User-friendly CutStudio Software Included

5

Best Support in the Industry

1

Roland Reliability Three-year Trouble-Free Warranty

- Supporting our reliability claim with an industry best Three-year Warranty with product registration
- Includes free telephone and e-mail support
- Additional Warranty Extensions Available for up to five years of total warranty coverage

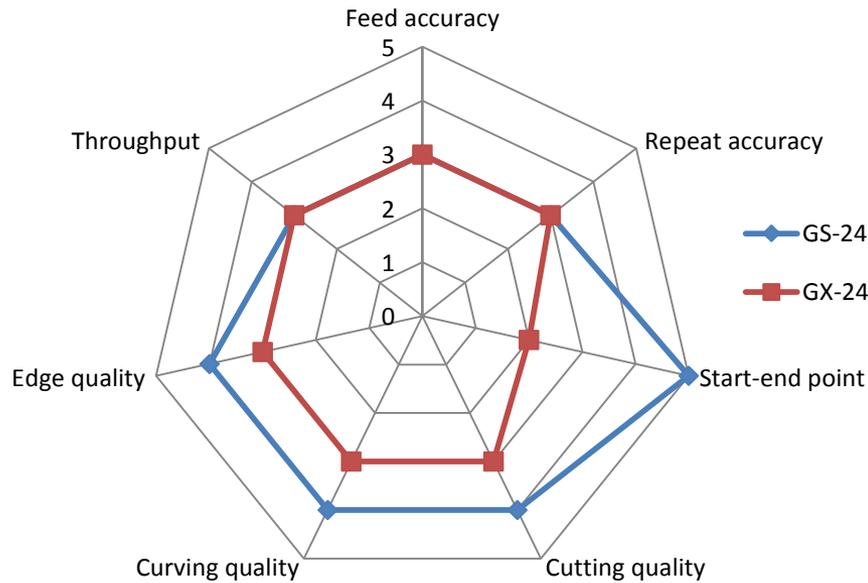

2

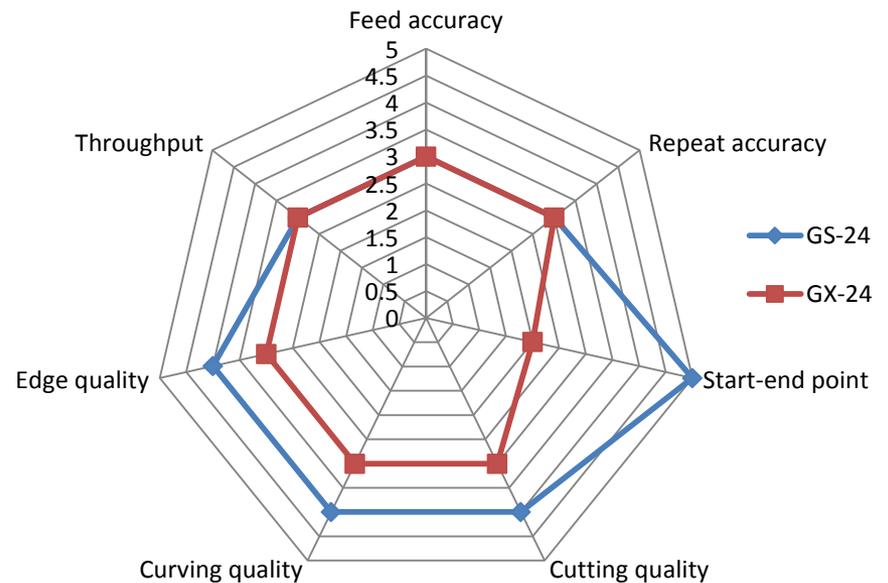

Outstanding cut quality

- Target cut quality

Cutting Characteristics (Low pressure)

Cutting Characteristics (High pressure)

The GS-24 shows improvements in Edge, Curving, and cutting quality at both low and high pressure settings

2

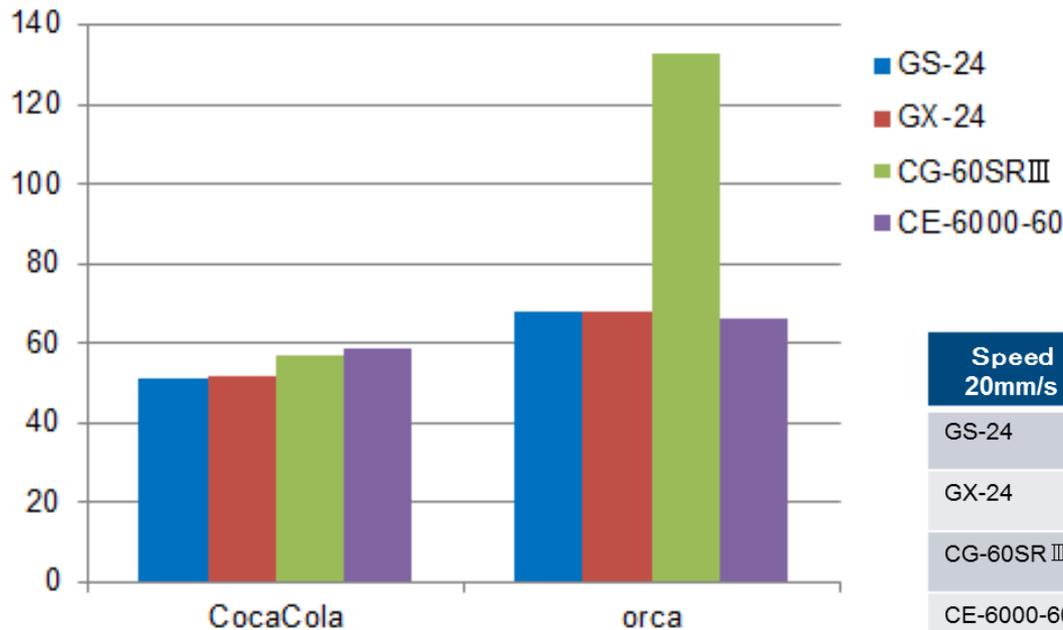

Outstanding cut quality

GS-24 has the best balance of both quality and speed

- Throughput Comparison using the same speed setting of 20 mm per second

Throughput time in seconds

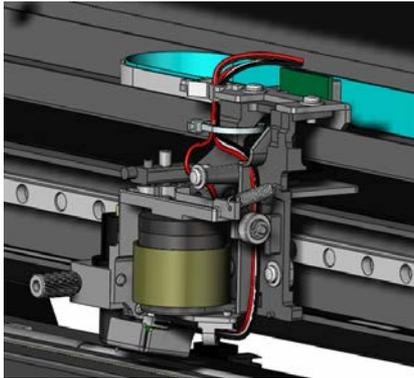

Speed 20mm/s	CcaCola 534mm × 160mm	Orca 100mm × 100mm
GS-24	51s	68s
GX-24	52s	68s
CG-60SR III	57s	113s
CE-6000-60	59s	66s

GS-24 has the best balance of both quality and speed

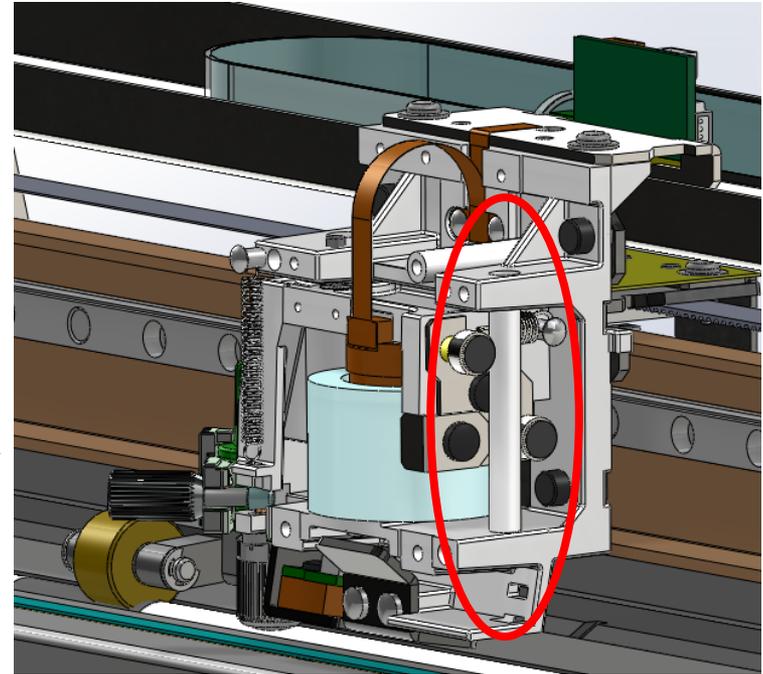

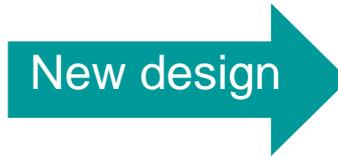

2

Outstanding cut quality

Redesigned Cutting Carriage with added stability for precision cutting at the highest downforce settings.

GX-24

GS-24

2

Outstanding cut quality

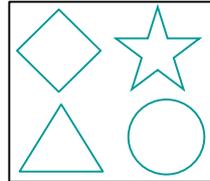

Newly designed tool carriage for ease-of-use and optimal performance cutting of a variety of materials.

3

Versatility

- Cutting downforce 30gf ~ 350gf
- Overlap cut

-Flow of overlap cut

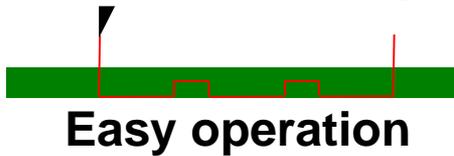

GX-24 : $\triangle \circ \star \diamond \Rightarrow \triangle \circ \star \diamond$

GS-24 : $\triangle \triangle \circ \circ \star \star \diamond \diamond$

(\Rightarrow : Return to origin after cut)

(\Rightarrow : More efficient than GX-24)

- Perforated Cutting

Half cut length	0.1mm ~ 200.0mm
Half cut downforce	1gf ~ 80gf
Cut length	0.1mm ~ 200.0mm

※Overlap and half cut can be set from both GS-24 and CutStudio

3

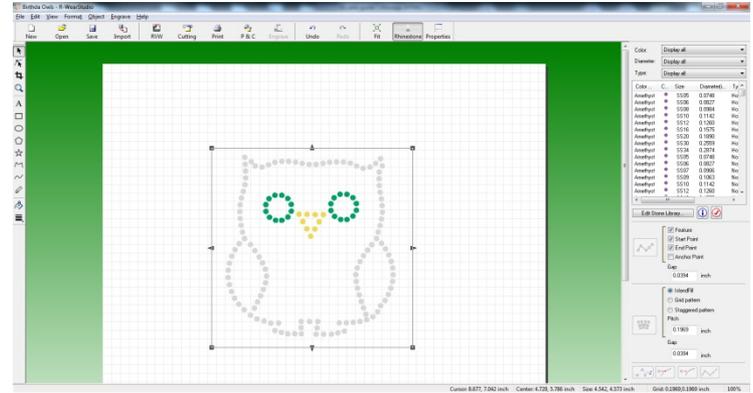

Versatility

3

Versatility

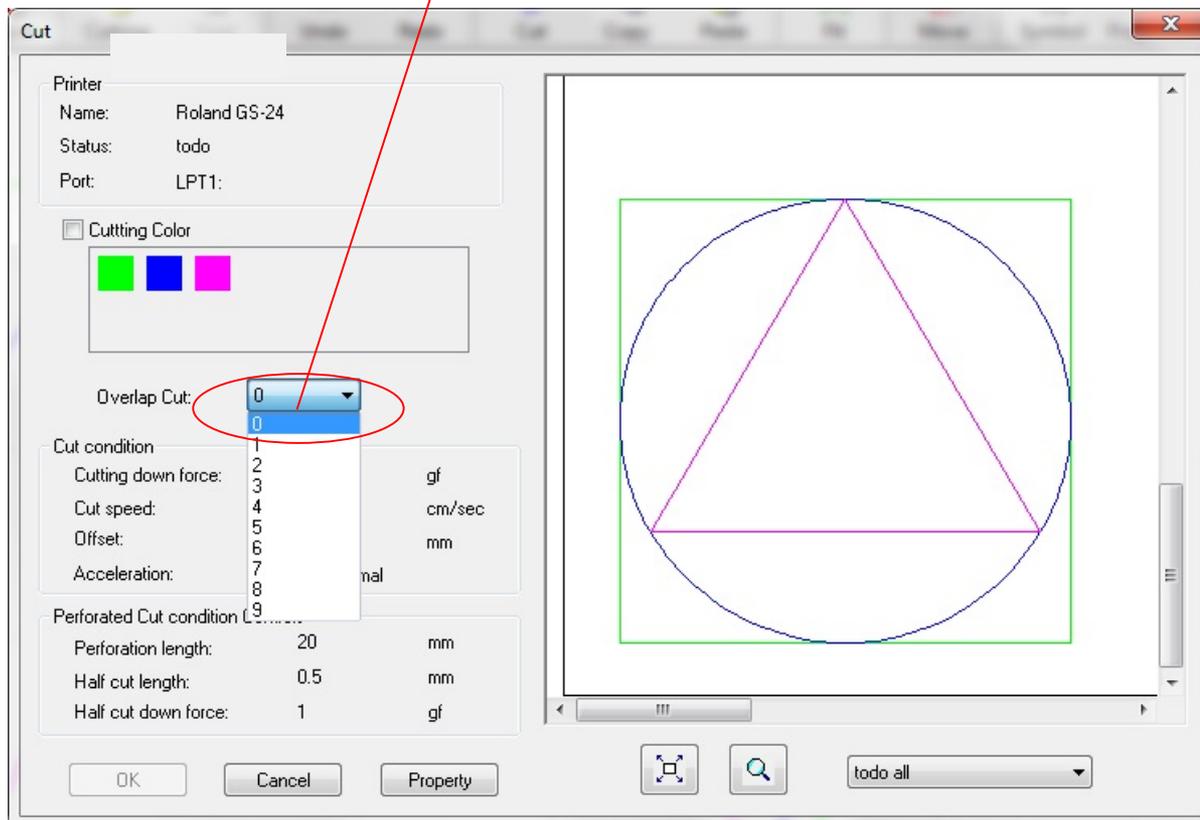

Compatible with Roland R-Wear Studio for creating custom rhinestone templates and multi-decorated designs

4

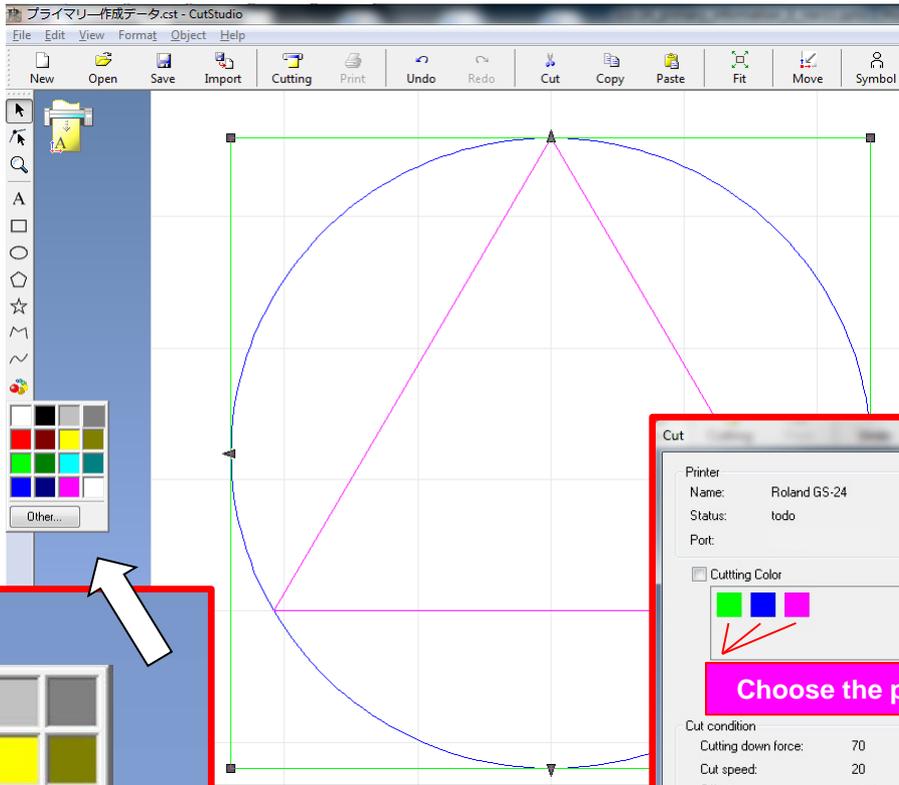

Included CutStudio Overlap cut function

Normal Cut + select number of Overlap cut
For example : Overlap cut : 「2」
Normal cut + Overlap cut x 2 =Cut 3 times in total

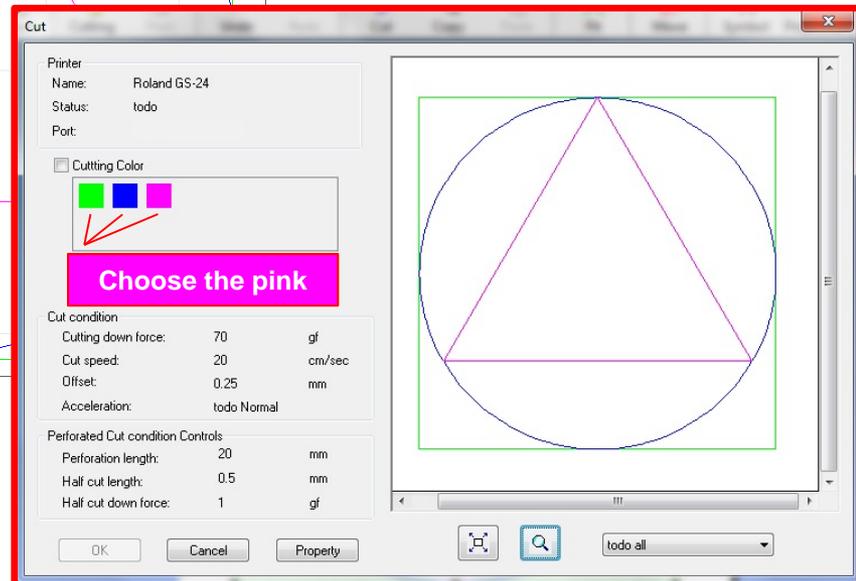

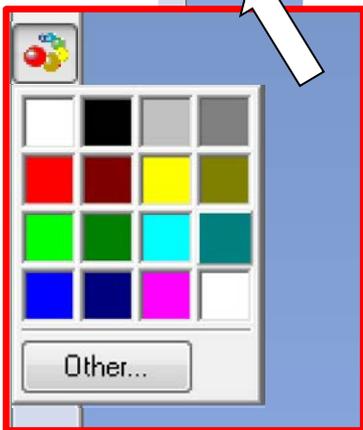

4

Included CutStudio Select cut lines by color

This simplifies design and eliminates production errors and wasted material

4

Included CutStudio

Perforated Cut function, with just a few clicks

The image shows the CutStudio software interface. On the left is a vertical toolbar with various icons. A red box highlights a specific icon, and a white arrow points from it to the main workspace. The workspace contains a circular design with a purple line indicating a perforated cut path. A 'Cut Setting' dialog box is open on the right, showing various parameters for the cut. A red box highlights the 'Perforated Cut condition Controls' section of the dialog.
