

VersaCAMM just got more tempting.

## The All New Roland 8-Color VersaCAMM VS-640

On February 16th, Roland will introduce our largest and fastest VersaCAMM ever. Combining the greatest Roland features of all time into one unit, with a brand new 8 channel piezo print head technology along with ECO-SOL MAX Metallic Silver ink in an entry level package, makes the VersaCAMM VS-640 truly an All-Star machine.

### Here are just a few of its features:

Feature	Benefit for Customer
\$26,495 MSRP	A fully loaded machine, for a mid-level price
New Print Head Technology	Faster Production printing, higher image quality
Roland VersaWorks 4.0	Enhanced Color, gradations
3 Ink Configurations	Productivity
Dual CMYK	Versatility
CMYKLeLmCM	Competitive Advantage
CMYKLeLmWMt	
64" Print/Cut Width	Ability to handle larger format jobs like vehicle wraps
New Wiper System	Even less maintenance for customer
Vertical Ink Cartridge Configuration	Space Saver
Ink Re-circulation system	Ink Savings for White/Metallic ink users
Two-Year Trouble Free Warranty	They're covered!
