# Restyling

Roland Restyling is the complete package...everything you need to turn vehicles into works of art, including the world's best-selling vinyl cutters, inkjet printers and printer/cutters, Roland Eco-Sol MAX mild solvent and Heatwave sublimation inks, Roland certified media and profiles, and powerful Roland VersaWorks RIP or CutStudio software.

## GX PRO SERIES VINYL CUTTERS

Roland GX Pro vinyl cutters let you shift your restyling business into high gear. Powered by digital servomotors, these professional grade devices achieve maximum accuracy and get jobs done faster. They get you in on the action in a wide range of profitable applications including cut vinyl graphics, custom window tinting, clear paint protectant, custom cut window graphics, airbrush masks and more. The GX PRO includes several features that increase usability, including front and rear media feeding, USB and serial connectivity and Roland CutStudio® software. Maximum cutting widths are 29" (GX-300), 39" (GX-400) and 47" (GX-500).

## VERSACAMM® ECO-SOLVENT PRINTER/CUTTERS

Roland's best selling VersaCAMM professional inkjet printer/cutters allow you to do a wide range of vehicle graphics, from simple decals and pinstriping to partial or full vehicle wraps. With Roland's full line of certified media, you can choose from over 15 different adhesive backed media for vehicle graphics including view-thru vinyl for eye-catching window graphics. Based on Roland's acclaimed 4-color printing and contour cutting technology, the VersaCAMM achieves a maximum print speed of 114 square-feet per hour (SP-540V), delivering 1440 x 1440 dpi printing with Eco-SOL Max mild solvent ink and precision contour cutting in one easy step. Available in 30" and 54" models. Roland VersaWorks RIP included.

## SOLJET™ XC-540 ECO-SOLVENT PRINTER/CUTTER

The SOLJET PRO III XC-540 is the ultimate high-volume production tool for not only custom vehicle graphics, fleet graphics, and decals but also banners, signs, posters and more. Professionals like West Coast Customs and Garage Graphics rely on the SOLJET to customize vehicles from race cars to jetboats to Hummers and Zambonis. Engineered to support high-volume environments, the XC-540 delivers vibrant 6-color CMYKcLm images at 441 sqft/hr. It features a tri-heating system, advanced media feed and automatic take-up system and can be upgraded with an optional dryer/blower. Available in 54" width. Roland VersaWorks RIP included.

## HI-FI EXPRESS FP-740 SUBLIMATION INKJET PRINTER

Take restyling beyond the exterior of the car with the vibrant power of sublimated graphics. From seatcovers and headliners to flags and coordinated soft signage, sublimated graphics add extraordinary impact. The all new Hi-Fi Express FP-740 74" sublimation printer brings Roland's award-winning inkjet technology, unmatched ease-of-use and legendary reliability to soft signage. Durable, rigid construction, an extended capacity ink delivery system and an impressive maximum print speed of 548 sqft./hr. make it ideal for high-volume production. Roland VersaWorks™ RIP included.

## ROLAND UNIVERSITY TRAINING WORKSHOPS

Through Roland University, we also offer a wide range of hands-on, professional workshops, including the two-day Roland Wrap Vehicle Graphics class. To learn more, please visit [www.rolanddga.com](http://www.rolanddga.com).
