

The following document outlines how to setup the proper permissions for Roland CutStudio Macintosh Plugin to output Adobe Illustrator cut data properly for users who are not the primary accounts on a Macintosh or who do not have administrative permissions.

- 1. Login as the primary account holder with administrative privileges.
- 2. Open the Macintosh HD

3. Open the Applications folder and highlight the CutStudio folder.

10. Once selected Access and Others should also be set to Read & Write.

11. Set Owner to System (this will give all users rights to cut via CutStudio).

12. Close all open Windows and applications and restart the Macintosh.

13. Once logged in, the user should now be able to cut from Adobe Illustrator via the Roland CutStudio Plugin.
