

# Face Designer

Turn Facial Photos Into Stunning 3D Relief Models In Minutes

Import profile image in JPEG, BMP, GIF and TIFF file formats.

Sketch profile outline and project image into 3D relief.

Virtual makeover with 3D relief sculpting and smoothing tools.

Review virtual simulation before producing on any Roland Engraver or Mill.

Bring sales and customer photos to life with powerful Face Designer software from Roland — the ultimate in personalization. Face Designer enables you to quickly and effortlessly turn side-profile portraits into 3D relief for output on any Roland desktop device, from EGX Series engravers and MDX Series SRP™ milling machines to the JWX-10 jewelry model maker and the RX-50 spiral axis engraver. In as little as 15 minutes, you can produce jewelry, charms, medallions, plaques, signs, promotional items, giftware — even

gravemarkers — featuring realistic 3D reliefs of friends, loved ones, honored guests, or favorite pets.

Face Designer software imports a variety of image files including Bitmap, TIFF, GIF, or JPEG to generate the 3D CAD model, making it simple to expand your business and increase your profitability.
