

# What's New in Geomagic Studio 10

Geomagic Studio 10 delivers the next leap in 3D modeling and broadens the possibilities of what can be accomplished with 3D scan data.

A major component of Geomagic Studio 10 is the new Geomagic Fashion module that enables the creation of optimized, CAD-ready surfaces from digitized objects. This new module is the perfect complement to Geomagic Shape, allowing you to automatically extract design intent and recreate original surface aesthetics that are often lost in the manufactured or scanned object.

## Geomagic Studio 10 also includes:

- An enhanced GUI with user-configurable display themes, sliders, and collapsible menus provide a
