

Pixologic is proud to announce that **ZBrush 3.12** for Mac Intel will be available on **Monday, September 29, 2008.**

**As** you already know, we've put tremendous emphasis on breaking down pipeline and platform-imposed barriers between your creativity and what you can create. Now more than ever, you can ***Do It Your Way.***

Learn all about **ZBrush 3.12** and its exciting feature set! We invite you to visit the **ZBrush 3.12** Home Page: **[CLICK HERE](#)**

Existing Mac license holders and new purchasers may register for ZBrush Mac OS X Upgrade.

Happy ZBrushing!  
--The Pixologic Team

\*ZBrush 3.12 is for Mac OS X systems with intel cpu(s). Regrettably, it will no longer be possible for new versions of ZBrush to support the discontinued Power PC platform. ZBrush 2 will continue to be supported for users of PPC's for as long as possible.
