

## Roland Biztools® Certified Indoor / ADA Signage Solutions

After researching all available technologies, Roland has certified three professional-grade Indoor/ADA Signage Solutions. Starting at around \$9,724.00, each solution mates a Roland EGX Pro engraver with Roland's Indoor Signage Display & Sample Materials Kit, professional software, Accent Signage Systems Raster Pen Starter Kit, ADA compliant stock, and more. You will be able to produce indoor and ADA compliant signs for public buildings, hospitals and government offices.

All components are sold separately by Roland authorized dealers and other vendors. Together, they will transform your business into a one-stop-shop for indoor and ADA compliant signage. See below for details!

Indoor/ADA Signage Systems	MSRP:
EGX-350 ADA/Indoor Signage System	Starting at \$9,724.00*
EGX-400 ADA/Indoor Signage System	Starting at \$14,224.00*
EGX-600 ADA/Indoor Signage System	Starting at \$16,224.00*

\* Estimated price with components listed below.

### Build Your Own System from the Components Listed Below:
