

## IF IT FLOATS, FLIES, DRIFTS, DRAGS, RACES, ROARS,

If there's one thing sports enthusiasts love more than playing with their grown-up toys, it's showing them off. That means miles of eye-popping durable graphics. And nothing is better at wraps than Roland inkjets. Because these devices were *Born to Wrap*.™ With every Roland inkjet, you can count on Roland Intelligent Pass Control<sup>®</sup> for photo-realistic print quality, proven durability, Roland Color Matching System for true spot color matching, superior performance on a wide variety of coated and uncoated media, and best of all, our legendary reliability.

## CRUISES OR JUST PLAIN SITS STILL ...IT'LL WRAP.

With the introduction of our all-new RS Series printers, we now have 12 models ranging from the best-selling 30" VersaCamm to the high-volume 104" AdvancedJET printing at speeds up to 968 sqft/hour. So whether you're wrapping a single Smart Car or a fleet of pleasure craft, you're sure to find a perfect fit for your business. We even have five integrated printer/cutters that produce stunning contour-cut partial wraps and decals. Over the years, our printers have won just about every printing award out there. Champs like us, baby, were born to wrap.
